

Group leader positions at the IMP

We invite applications for principal investigator positions at the Research Institute of Molecular Pathology (IMP) in Vienna, Austria. Junior group leader (similar to assistant professorships) as well as tenured senior group leader applications can be considered.

The IMP is one of the world's leading basic biomedical research institutes, located at the thriving and interdisciplinary Vienna BioCenter. The IMP conducts curiosity-driven research across a wide range of topics. We aim to recruit group leaders with a strong and innovative research program in the areas of synthetic biology, genomics, gene regulation, development, cancer, immunology and infection biology and welcome applications with artificial intelligence and proteomics approaches.

Junior group leader positions are fully independent positions, similar to assistant professorships; senior group leaders are tenured positions. The IMP offers internationally competitive salaries and generous funds for student, postdoc and technician positions, investments and running costs. Research groups are supported by state-of-the-art core facilities, such as bioinformatics, biooptics, cryo-electron microscopy, next generation sequencing and mass spectrometry.

The IMP participates in the international Vienna BioCenter PhD Program and Summer School, which are amongst the most competitive graduate and undergraduate research programs in Europe.

The IMP aims to improve gender balance among its faculty and therefore encourages female scientists to apply to this call.

This is a rolling call with no fixed deadline. Applications, including a CV, a summary of research achievements and future research plans, and the contact details for 3 referees, should be submitted via the link below. Administrative questions can be raised with Ms. Manuela Steurer (manuela.steurer[at]imp.ac.at).

The IMP is home to scientists from over 40 different nationalities. Vienna offers a lively multicultural environment with high living standards, consistently ranking in the top 3 cities worldwide for the quality of living. Childcare facilities are available on campus.
